

# COMPANY PROFILE

## INTRODUCTION

**Deltasoft** is a Pakistan based software house, serving the local and global clients since 2006. We are specialized in development of management systems. Our key of success is our well experienced team of professionals. Who are working day and night to provide the best to our clients.

**Deltasoft** is a customer focused software house in Pakistan delivering high quality added software solutions within a short time frame. **Deltasoft** has a long list of successfully delivered software solutions for several clients in diversified business domains.

**Deltasoft** aligns itself with modern and advanced concepts in IT industry to help its customers (businessmen and entrepreneurs) by providing value added software. **Deltasoft** performs thorough research on each given problem and advises its customers on how their business growth aims can be achieved by the implementation of a specific and research-based software solution.

## CORE VALUES

### INNOVATION

We always try to bring something new and more better for our clients. We don't depend on available traditional interfaces and designs. Our aim is to increase ease and control in applications. So we design our own controls and interfaces to give the quick and powerful control to users.

### CONTINUOUS IMPROVEMENTS

The I.T. industry is changing with the pace of time. Many new tools are developed and many new technologies are introduced each day. So we keep ourselves up to date and improve our products with the help of latest technologies. It is our goal to provide the best to our valuable clients.

### EXCELLENCE

Excellence is one of the most important values for us. All the projects are supervised by experts having a vast experience in the concerned fields. None of the development phase is less important so we check each step in standard ways to assure the quality of our products.

### CUSTOMER CARE

We do believe in customer care, not only during the period of development process but after the completion of projects. We built long term relationship with our clients by providing them in time after sales services.
